## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 26-34 and 37-67 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art teaches the invention essentially as claimed but does not teach the detector range. See Kasner et al. (USPN 4789770). Typical devices use lasers for both beam processing and measuring light. See Nakano (US 2003/0157242) and Shimomura (USPN 5763853). When a non-laser light is used for measurement there is no disclosure of measurement of a reflected light directed along the axis from the processing site. See Chang (USPN 6040550) and Beyer et al. (USPN 5373135).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hartmann et al. (USPN 6545250 B2).
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Edmondson whose telephone number is (571)
